

# Your dog won't thank you enough.

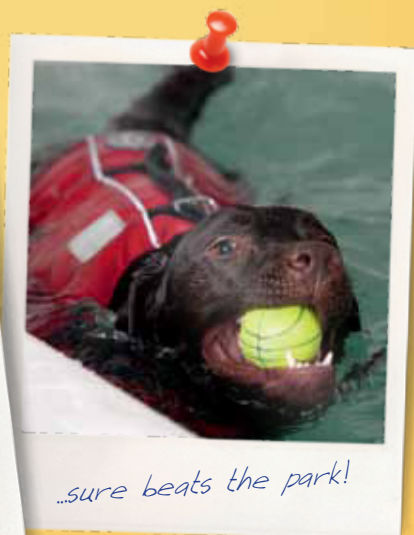

Whether it's a fun swim, puppy swim or medical swim, hydrotherapy is the ideal low-impact exercise for dogs to increase flexibility, build strength and even lose weight.

And there's no better place to do it than mypetstop. Our large, fully-equipped pool is a warm 27-29 degrees and has seen all kinds of dogs leave with a big, wet smile on their face. It's not surprising when you consider that a five minute swim is the equivalent of a five mile run!

You can rest assured they'll be safe – we've over five years' experience, and all dogs swim with a life jacket, under the supervision of a trained hydrotherapist.

So why not let your dog benefit from one of the different kinds of swim listed overleaf?

Relax, we're pet people

## Fun Swim

Dogs love swimming in mucky water. But why go through the hassle of having to clean your bathroom afterwards? Just book them in for a fun swim instead. They'll have a great time while benefiting from some fantastic low-impact exercise.

**£15.99**

## Puppy Swim

Because puppies' bones and joints are still developing, swimming is ideal to ensure they aren't subjected to stresses or strains. It's also a great way of teaching them how to swim in a safe and secure environment so they become confident in water from an early age.

**£12.99**

## Medical Swim

Medical Swims can be a vital way for dogs to stay healthy. So if your dog is frustrated by a medical or mobility issue, try a Medical Swim to help them out. As an added bonus, many insurance companies will contribute towards the cost.

**£26.50**
